HANDBOOKS & ACTIVE DOCUMENTS | **ADVISING & BULLETINS** | **PROSPECTIVE STUDENTS** | **TRANSFER STUDENTS**

OPTIONAL DOCUMENTS | **DRAFT DOCUMENTS** | **WORKING PAPERS** | **MORE PAGES** | **OTHER RESOURCES**

Communications Tools

- JitBit **AutoText** boilerplate text insertion tool: https://www.jitbit.com/autotext/
  Lets you type a few letters and get an entire phrase. For example, you can set it up so when you type "iite" you get "Illinois Institute of Technology." F
  personal use; Windows only.
- **LibreOffice** Full office suite: https://www.libreoffice.org/
  Includes word processor, presentation graphics, spreadsheet, database app, vector graphics editor, and equation editor. Open source with boatloads
  possible extensions; Windows/Linux/Mac versions. Nominally compatible with OpenOffice.org but has better developer support. Can read and save i
  Microsoft Office formats.
- Graphic Arts tools
  - **sK1 2.0** vector graphics editor: https://sk1project.net/sk1/
    Designed to be CorelDraw compatible so the interface is easy to learn and easy to use; Windows/Linux.
  - **Inkscape 1.3** vector graphics editor: https://inkscape.org/
    Far more complex but far more capable than sK1 and uses SVG as a native format; Windows/Linux/Mac.
  - **PhotoDemon 9.0**, a fast, free, portable photo editor: https://photodemon.org/
    Windows only.
- **LibreOffice** and **Inkscape** can be downloaded together for installation—along with many other Windows apps—at **https://ninite.com/**
