Fall 2020 student registration access will be activated according to your current standing—determined by credit hours completed—and the following schedule:

1. Mon, Apr 6, 8:30am: Student athletes, ROTC students, and students with disabilities
 2. Tues, Apr 7, 8:30am: Graduate & U5 (5th Year Undergrad) & U4 (4th Year Undergrad) registration starts

- Student class standing for registration is based on earned hours, which **does not include** classes taken in the Spring 2020 semester.

Fall 2020 class schedules will be officially available Monday March 23 and summer classes have been available for a while. (You can already register for summer term courses using your Spring 2020 Alternate PIN.) You can view the class schedule either in the MyIIT Academics tab or in the “quick links” on www.iit.edu; you can also use the “secret faculty version” of the schedule at <https://wildfly-prd.iit.edu/coursestatusreport/>; just select your subjects from the drop-down box. In order to see **ALL** ITM courses using MyIIT drop-down menus, you must hold down your CTRL key and select Information Tech and Mgmt, ITM Development, ITM Management, ITM Operations, ITM Security & ITM Theory and Technology.

Due to the COVID-19 contingency plan now in effect, all advising for Fall will take place online. Google Meet information for each undergraduate adviser is provided below.

For Professor Trygstad’s Advisees: You may schedule an appointment at <http://trygstad.rice.iit.edu/appointment/> but *please* ensure you log into the Google Meet at or before your scheduled time in order to be fair to your fellow students.

You cannot make an appointment during my *scheduled office hours* (1 pm – 5 pm Monday and 2 pm – 4 pm Wednesdays) or on Fridays. **Just log in to the Meet** and say something so I hear you are there; I may not be on that screen. If I am not logged into the Meet on Fridays it mean I am working or are in meetings and am not available. Evening advising is unlikely but, along with advising at a location other than my offices, can only be arranged by appointment via email.

For Professor Hajek’s Advisees: Professor Hajek is Tuesday through Thursday afternoons and Friday mornings, and can be available by prior arrangement for advising on Mondays.

MATH for BITM Undergrads

BITM students may register for **PSYC 203, Undergraduate Statistics for Behavioral Science** which includes a lab using R, or **MATH 225 Introductory Statistics** which is basically the same course as **PSYC 203** without the lab.

MATH for BSACIT Undergrads

First-year students who have not started calculus should register for **MATH 148 Preparation for Calculus** or **MATH 151 Calculus I** depending on your math placement score. Students who have completed the calculus sequence (MATH 151, 152, and 251) should take **MATH 474 Probability and Statistics**.

ITM First Year Undergraduate (Freshman) Advising

Freshmen should enroll in a Natural Science or Engineering elective. Remember that two courses in Natural Science or Engineering must be in the same subject area. We strongly recommend PHYS 200, Energy, Waves, Materials, & Forces.

Freshmen should take a humanities elective, i.e. HUM 20X or take a lower social or behavioral science elective. HUM 208 is strongly recommended. Remember that you must take 9 hours of lower-level social or behavioral science and humanities (100/200) but it can be two humanities and one social or behavioral science or two social or behavioral science and one humanity.

Most of your classmates will be taking an Introduction to the Profession (ITP) course numbered 100 (i.e. CS 100, CAE 100, ME 100, etc.) but our course, ITM 100, is taken in the first semester of your second year. Instead you’ll probably take ITM 301, Intro to Hardware and Operating Systems, and ITM 311, Intro to Software Development (Java).

ITM Current Second Year Undergraduate (Sophomore) Advising

Sophomore (U-2) students who entered the program as first year undergraduates (freshmen) need to start thinking about a minor, as completion of a minor is required in your ITM program. It can be anything you want—I do think it’s amazing to see someone in IT minor in philosophy—but you really need to start thinking about this. An interesting minor with a strong relationship to ITM is Supply Chain Management.

Second year students who have completed three semesters at IIT may want to consider applying for the Co-Terminal Degree program, which would allow you to earn a Master’s degree while you are an undergraduate; speak with your adviser for more details.

All second year students must register for ITM 100 Introduction to the Profession in the Fall semester, and if you’ve completed ITM 311 and ITM 313, you need to take ITMD 411.

Fall 2020 ITM Undergraduate Advising Notes

Version 3

ITM Current Third Year Undergraduate (Junior) Advising

Junior (U-3) students who entered the program as first year undergraduates (freshmen) should be two or three courses into your minor since completion of a minor is required in your ITM program. If you are not, we *seriously* need to talk. Also, transfer students who have completed a semester at IIT may want to consider entering the Co-Terminal Degree program, which would allow you to earn a Master's degree while you are an undergraduate; speak with your adviser for more details

All transfer students who have entered the program since Fall 2017 who have not taken it must register for ITM 100 Introduction to the Profession.

Humanities General Education Elective Selection

Here are Professor Trygstad's recommendations for Upper-Level Humanities General Education electives for Fall 2020 with my reasons. We can't promise a course will be good; we're just trying to highlight the courses we believe would be of the most interest to ITM students. There are a number of courses we think will interest you this term, and there's at least one evening humanities courses offered, so if you work full-time, grab it while you can! All courses are at Mies Campus, and most sections have 22 seats. All course data follows the format:

CRN/Course Number/Days-Time/# of Seats/Bldg-Room/Instructor

Social Media and Society: Very relevant to our profession.

12326/COM 380-02/ Mon-Wed 10:00am-11:15am/22/TBA/Xiaoqian Li

Emerging Civilizations: Val Martin is a good teacher who "gets" ITM students.

10271/HIST 380-01/Mon-Wed 8:35am-9:50am/22/TBA/Val Martin

The City in World History: Again, Val Martin.

19375/HIST 351-01/Tues-Thur 8:35am-9:50am/22/TBA/Val Martin

Filming the Past: History through film with two interesting projects: a short podcast and a short documentary film on a historical topic.

13686/HIST 377-01/ Wed 5:00pm-7:40pm/22/TBA/Marie Hicks

Ethics of Information/Communications Technology: Good introductory course in the topic; good complement to ITMM 485 which we offer in the Spring.

12607/PHIL 380-04/Tues-Thur 1:50pm-3:05pm/22/TBA/Elisabeth Hildt

Social and Behavioral Science General Education Elective Selection

Here are my recommendations for Social and Behavioral Science General Education electives for Fall 2020 with my reasons. All courses are at the Mies Campus unless noted otherwise. The Subject Code *SSCI* is applied to courses that formerly were cross-listed as both Political Science and Sociology, and can count as either for prerequisite and subject distribution purposes. All course data follows the format:

CRN/Course Number/Days-Time/# of Seats/Bldg-Room/Instructor

Introduction to Sociology of Space: Great course taught by a great instructor, and if you like it there's a follow-on 300-level project course. And, it's an **evening social science course**.

12074/SOC 211-01/Wed 6:25pm-9:05pm/27/TBA/Ullica Segerstrale

Introduction to the Sociology of Technology and Science: Interesting course taught by a great instructor.

13714/SOC 250-01/Tues-Thur 11:25am – 12:40pm/27/TBA/Ullica Segerstrale

Sociology of Objects & Technology: Relates to our profession and it's an **evening social science course**.

12510/SOC 322-01/Wed 5:00pm-7:40pm/27/TBD/Noah McClain

Global Chicago: A look at Chicago's place on the world stage. Odd time and day but it might work out in your schedule. I recommend this course but I do not recommend this instructor

11517/SSCI 220-01/Fri 10:00am-12:40pm/27/TBA/Elizabeth Friedman

Geographic Information Systems: A strongly IT-related course; good to have on a resume. You can follow it up with SSCI 325.

11833/SSCI 225-01/TBA/27/TBA/Hao Huang

Topics: Science Fiction in Film: Not sure why this is SSCI and not LIT, but hey, the title is promising, and it's in the **evening**.

11518/SSCI 285-01/Thu 6:25pm-9:05pm/27/TBA/Christopher Deis

Industrial Psychology: This course is highly recommended and professionally relevant. And no prerequisite!

10449/PSYC/301-01/LEC/3/Mon-Wed 1:50pm-3:05pm/50/TBA/Kristina Bauer

10450/PSYC/301-02/LEC/3/Tues-Thur 8:35am-9:50am/50/TBA/TBD

10451/PSYC/301-03/LEC/3/Tues-Thur 1:50pm-3:05pm/50/TBA/Mahima Saxena

WARNING I have not listed them, but you may notice that there are two online Social/Behavioral Science electives in the fall term: **ECON 423-02 Economic Analysis of Capital Investments** and **PSYC 481-02 Group & Leadership at Work**. I do not recommend either class either live or online, despite the extreme scarcity of online general education electives. This is because experience has shown that if you take one of these courses and four other classes, ECON 423 or PSYC 481 will be as much work as your other four classes combined. I like John Twombly who teaches ECON 423 and Roya Ayman who teaches PSYC 481 and you probably would too—they are excellent teachers—but their expectations are extremely high as is the workload in their classes. If you really need to do a social science elective online AND you are not afraid of hard work (*really* hard work), then GO FOR IT. And remember, your adviser needs to enter a departmental permit for undergrads to register for any online courses.

Natural Science/Engineering Elective Selection

Here are my recommendations for Natural Science/Engineering General Education electives for Fall 2020 with my reasons. All courses are at the Mies Campus. All course data follows the format:

CRN/Course Number/Days-Time/# of Seats/Bldg-Room/Instructor

Engineering Graphics for Non-Engineers: Learn to read blueprints and much more. The time for this class is not listed because the instructor, Jim Novak, gathers up the schedules of all of the students who have enrolled and determines a time for the class to meet that will work for everyone. Jim is “officially” retired and we don’t know how much longer he will teach this course, but he is the wizard of engineering graphics so get it while you can. If you want or need to take this, send an email to novak@iit.edu to request a permit to register, and be sure to include your student ID number.

10137/EG 225-01/TBD/36/RE-029/James Novak

Astronomy: If you are completing most of your Natural Science/Engineering requirement through the Engineering Graphics track but need that one course in a different subject, this could be your choice.

11679/PHYS 120-01/Mon-Wed 10:00am-11:15am/32/TBA/David Gidalevitz

Introduction to Energy, Waves, Materials, & Forces: A four-hour, non-calculus -based physics class. HIGHLY recommended.

10068/PHYS 200-01/Tues-Thur 11:25am-1:05pm/100/TBA/Sally Laurent-Muehleisen

If you are following the EG sequence for your Natural Science/Engineering requirements, you should note that **EG 325** and **EG 425** are also offered this term.

Cyber Security Management is an in-depth look at the program creation, administration and management elements of information security at an enterprise level. It’s a required course for ACIT students. Regardless of you major, if you are going to do a Co-Terminal Degree in cybersecurity, select ITMS 578 instead—same time, location, and instructor. If you are only going to take one other cybersecurity course beside the required ITMS 448, this should be the one.
